RESEARCH EXPERIENCE

 New York University, Finance and Risk Engineering Department Visiting PHD student Harnessing Information Geometry for Learning Dynamical Systems on Graph Neura 	May 2024 - May 2025 Il Networks
Ecole Polytechnique, Laboratoire d'Informatique de l'X PHD candidate Supervisors : Michalis Vazirgiannis, Fragkiskos D. Malliaros , Johannes F. Lutzeyer PhD in Graph/Geometric machine learning.	July 2022 - Present
Ecole Polytechnique, Laboratoire d'Informatique de l'X <i>Research Engineer</i> · Graph/Geometric machine learning.	January 2022 - June 2022
 NAVER LABS EUROPE Research Intern Supervisor : Jean-Michel Renders Evaluating the robustness of click models to policy distributional shift. Deep exposure models for unbiased recommendation. 	April 2021 - October 2021
 INRIA Saclay Research Assistant, Supervisor : Fragkiskos D. Malliaros Extension of deep learning algorithms to nonEuclidean data represented as Multilay Application to the problem of graph-based multi-omics data integration in bioinform 	October 2020 - April 2021 er Networks (graphs). natics
 French National Center for Scientific assistant - CNRS Research Assistant, Supervisor : Ludovic Goudenège & Gautier Viaud The study of Partial Differential Equation mixed with free boundary problems. Deep Learning algorithms for stochastic control problems on finite horizon in high- 	October 2018 - June 2019 dimension.
 Hedge Fund of La Française Group Research Intern Optimal Control Algorithms for Long/Short Equity Trades in Variance Swap Pairs Str 	March 2020 - August 2020 ategies.
 Societe Generale Corporate and Investment Banking Exotic Equity Derivatives Trading/Research Intern Calibration of Stochastic Volatility models for pricing Exotic Equity Derivatives, e.g. A Dynamic Hedging Optimization: An Optimal Control Approach. 	September 2019 - February 2020 Autocalls.
EDUCATION	
PHD Student - Ecole Polytechnique PhD in Graph/Geometric machine learning.	July 2022 - Present
MVA Master (Mathematics, Vision, Learning) - ENS Paris Saclay Master's degree in Mathematics, Machine Learning and Computer Vision. Highest honors	September 2021 - December 2022
Ecole CentraleSupelec Paris-Saclay Master of Science, Applied mathematics & Engineering. High honors	September 2017 - December 2022
CPGE MOULAY YOUSSEF , MPSI - MP An intensive program in Mathematics, Physics, Engineering science and Computer s	September 2015 - September 2017 science.

Y. ABBAHADDOU, S. ENNADIR, J. Lutzeyer, and M. Vazirgiannis. Bounding the expected robustness of graph neural networks subject to node feature attacks. Submitted to *The Twelfth International Conference on Learning Representations (ICLR), 2023.*

Y. ABBAHADDOU, F. Malliaros, J. Lutzeyer, and M. Vazirgiannis. Centrality Graph Shift Operators for Graph Neural Networks. Submitted to *The Forty-first International Conference on Machine Learning (ICML), 2024.*

S. ENNADIR, **Y. ABBAHADDOU**, M. Vazirgiannis, and H. Bostrom. A simple and yet fairly effective defense for graph neural networks. In *The Second Workshop on New Frontiers in Adversarial Machine Learning*, 2023.

Y. ABBAHADDOU, J. Lutzeyer, and M. Vazirgiannis. Graph neural networks on discriminative graphs of words. In *NeurIPS 2023 Workshop: New Frontiers in Graph Learning, 2023.*

WORKING PAPERS

Towards Balanced GNNs for Financial Networks: Leveraging Information Geometry to Tackle Quantity and Topology Imbalance.

Systemic Risk Reduction via Information Geometry-Based Graph Rewiring.

A New Perspective on Graph Equivalence: k-Hop Similarity and GNN Invariance. With Prof. Amine Aboussalah.

Post-Hoc Robustness Enhancement in Graph Neural Networks with Conditional Random Fields. With *Prof. Johannes F. Lutzeyer, Prof. Fragkiskos D. Malliaros* and *Prof. Michalis Vazirgiannis.*

TEACHING

INF554 Course - Ecole Polytechnique *Machine and Deep learning*. INF581A Course - Ecole Polytechnique *Advanced Deep learning*.

SKILLS AND LANGUAGES

LanguagesFrench, English, ArabicSkillsPython, R, JAVA, Matlab, SQL, VBA

TALKS

GNNs & Robustness. *April 2024 at Technology Innovation Institute (TII)*. Theoretically Upper-Bounding the Adversarial Robustness of GNNs. *31th March 2024 at Morocco AI*. Deep exposure models for unbiased recommendation. *October 2021 at Naver Labs Europe*

ACHIEVEMENTS & AWARDS

Top 1% students in Morocco (Concours National Commun ranking 2017) [Ranked 52-nd]. French Government's Major-Excellence Scholarship (37,830 €) [Given to the top 40 Students]. Merit Scholarship of the CIUP (5,000 €). ICML Grant (1,700 \$).

EXTRA-CIRRUCULAR

Sport: Football, Mixed Martial Arts Interest: Photography
